

species that are also environmentally sound. The second is expansion both in terms of scope and funding of a National Oceanic and Atmospheric Administration and Fish and Wildlife Service program geared toward demonstrating technologies that prevent invasive species from being introduced by ships. This is the federal government's only program that is focused solely on helping develop viable technologies to treat ballast water. It has been woefully underfunded in the past and deserves more attention.

The fifth part of the bill focuses on setting up research to directly support the Coast Guard's efforts to set standards for the treatment of ships with respect to preventing them from introducing invasive species. Ships are a major pathway by which invasive species are unintentionally introduced; the ballast water discharged by ships is of particular concern. One of the key issues that has hampered efforts to deal with the threats that ships pose is the lack of standards for how ballast water must be treated when it is discharged. The Coast Guard has had a very difficult time developing these standards since the underlying law that support their efforts (the National Invasive Species Act) did not contain a research component to support their work. This legislation provides that missing piece.

Finally, the sixth and final part supports our ability to identify invaders once they arrive. Over the past couple of decades, the number of scientists working in systematics and taxonomy, expertise that is fundamental to identifying species, has decreased steadily. In order to address this problem, the legislation sets up a National Science Foundation program to give grants for academic research in systematics and taxonomy with the goal of maintaining U.S. expertise in these disciplines.

Taken together, both my bill and Mr. GILCREST's bill represent an important step forward in our efforts to prevent invasive species from ever crossing our borders and combat them once they are here. New invaders are arriving in the United States each day, bringing with them even more burden on taxpayers and the environment. We simply cannot afford to wait any longer to deal with this problem, and so I urge all of my colleagues to support this legislation.

HONORING RABBI MICHAEL
ROBINSON OF SONOMA COUNTY

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Ms. WOOLSEY. Mr. Speaker, I rise today to honor Rabbi Michael Robinson of Sonoma County who has dedicated his life to the cause of social justice at home and around the world. From the American civil rights movement to the Nicaraguan Contra war to the Israel-Palestinian conflict Rabbi Robinson has been on the front lines promoting peace and the improvement of humanity. On April 14 he is being presented with the Jack Green Civil Liberties Award by the ACLU of Sonoma County for his lifetime of achievements in this arena. Nobody deserves this honor more than Michael Robinson.

Born in North Carolina, Robinson received his B.A. from the University of Cincinnati and

attended North Carolina State College before enlisting in the Navy during World War II. He served in the Pacific and became a pacifist immediately after this experience.

In 1952, after completing a course of study at Hebrew Union College in Cincinnati, Robinson became the first North Carolina native to be ordained as a rabbi. He later earned his doctoral degree from the New York Theological Seminary and served in temples in Seattle and Pomona as well as 29 years as an activist leader at Temple Israel in Westchester, New York. During the civil rights movement, the synagogue raised money to help rebuild the black churches that had been burned in the South and finance the van used by the Freedom Riders to tour the South. Rabbi Robinson marched with Martin Luther King Jr. in Selma, and expressed his convictions with these words: "When I was 10 years old I began sitting on the back seat of the bus with 'colored people.' I never returned to the front seat."

After moving to Sonoma County with his wife Ruth, Rabbi Robinson served Shomrei Torah and is credited with growing the congregation from 30 families to now the largest Jewish congregation in Santa Rosa. Retired since 1996, Rabbi Robinson holds the title of Rabbi Emeritus at both Temple Israel and Shomrei Torah.

In addition to promoting affirmative action, same sex marriage, affordable housing, and other equality issues, Robinson has worked against nuclear war, apartheid, and all forms of injustice. He is known locally for his involvement in the Sonoma County Task Force on Homelessness, Children's Village, the Living Wage Coalition, Habitat for Humanity, the Sonoma County Peace and Justice Center, and the Sonoma Land Trust.

A founding member of Angry White Guys for Affirmative Action in 1996, Rabbi Robinson's words still resonate: "I hope that my anger will not dissipate until justice is done and every man, woman and child has equal access to all the privileges of a democratic society and receives equal respect."

Mr. Speaker, I share that passion and also Rabbi Robinson's hope that we as a Nation can become better people and create a just society. Michael Robinson is a model for all of us—from the ACLU of Sonoma County to those in distant lands who strive for basic rights. His words as well as his deeds are an inspiration that none who have come into contact with him will ever forget.

THANKING MR. WAYNE MYERS
FOR HIS SERVICE TO THE HOUSE

HON. ROBERT W. NEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. NEY. Mr. Speaker, on the occasion of his retirement in March 2005, we rise to thank Mr. Wayne Myers for 31 years of outstanding service to the United States government, with the majority of it here in the U.S. House of Representatives.

Wayne began his government career in 1967 as a soldier in the U.S. Army where he was trained as a combat radio repairman and served a tour of duty in South Vietnam. Upon being honorably discharged in 1970, he con-

tinued his education in the electronics field. After 4 years, Wayne became a technician at the National Air and Space Museum and later transferred to the National Gallery of Art. In 1979 he joined the engineering staff of the House Recording Studio as it began the historic television coverage of House floor proceedings. For the past 25 years Wayne Myers has led by his quiet dependable example. He has been a selfless team player. His faith has given him the inner peace to work through the most tenuous times without complaint while still maintaining a great sense of humor.

On behalf of the entire House community, we extend congratulations to Wayne for his many years of dedication and outstanding contributions to the U.S. House of Representatives. We wish him many wonderful years in fulfilling his retirement dreams.

IN HONOR OF GAY, LESBIAN,
STRAIGHT ALLIANCES AND THE
NATIONAL DAY OF SILENCE

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. NADLER. Mr. Speaker, I rise today to join hundreds of thousands of young people across the Nation to "break the silence" surrounding the scourge of anti-gay bullying and harassment in our schools. In more than 4,000 schools in all 50 states and Puerto Rico, students have taken a day-long vow of silence to peacefully and poignantly draw attention to the abuse routinely faced by their lesbian, gay, bisexual, and transgender (LGBT) classmates. Over 450,000 students are expected to participate in this year's National Day of Silence.

This ever-growing, student-led effort, co-sponsored by the Gay, Lesbian, and Straight Education Network (GLSEN) and the United States Student Association, is a clarion call to parents, teachers, and school administrators to help end the all too common practice of dismissing or discounting student-on-student harassment. It is increasingly clear that young people of conscience will not sit idly by as their LGBT friends or classmates are preyed upon by bullies and bigots. They will stand up and speak out against such bigotry and intolerance, even if the adults in their lives will not.

We have all heard the saying, "sticks and stones may break my bones, but names will never hurt me," which has been used for generations by countless children to fend off verbal attacks from their peers. Unfortunately, the notion that such verbal bullying or harassment is a "normal" and unavoidable part of growing up remains a widely accepted attitude amongst school administrators and teachers in this country. Too often, adults tend to dismiss or even romanticize schoolyard bullying as some sort of coming of age ritual or an inevitable "right of passage." Today, I join with the growing chorus of voices, including informed educators, children's rights advocates and students, who reject such anachronistic, survival-of-the-fittest thinking.

The uncomfortable truth is that "names" and labels can indeed hurt. For sensitive or vulnerable young people—particularly LGBT youth who are already struggling with their sexuality in a cultural and social context that often is overwhelmingly hostile to it—such verbal

abuse, and the social and emotional isolation that often accompanies it, can leave lasting emotional scars.

And too many schools have a culture that fosters and sustains a hostile environment for these youth. Surveys indicate that the average high school student hears 25 anti-gay slurs daily; 97 percent of high school students regularly hear homophobic remarks. Even more alarming are the results of GLSEN's most recent National School Climate Survey, which found that 84 percent of LGBT students had suffered some form of abuse and 82.9 percent of these reported that adults never or rarely intervened when present. It is unsurprising that such a pervasive atmosphere of harassment takes its toll. LGBT students are far more likely to skip classes, drop out of school and, most disturbingly, attempt suicide.

According to numerous studies, LGBT teens are 2 to 3 times more likely to attempt suicide. Such statistics are a sobering reminder that we must redouble our efforts to provide our children with safe and secure learning environments. No student should be harassed or attacked simply because they are perceived as different, or because they have had the courage to openly acknowledge their sexual orientation.

Through their actions, the student organizers and participants of the Day of Silence set an example for their peers and their elders alike. Their silence has spoken volumes about the need for us to recognize the corrosive climate of fear and intimidation that any kind of bullying creates. Our schools should be havens for learning and personal growth, not arenas for conflict and harassment. For their courage, their compassion, and their tenacity, I honor all those who took this vow of silence today.

TRIBUTE TO DR. SHIRLEY JACKSON,
PRESIDENT OF
RENSSELAER POLYTECHNIC INSTITUTE

HON. JOHN W. OLVER

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. OLVER. Mr. Speaker, I rise today to recognize the educational leadership of Dr. Shirley Jackson. As university president, Dr. Jackson has helped shape Rensselaer Polytechnic Institute, RPI, into one of the premier technological universities in the world.

A key aspect of Dr. Jackson's effort was the establishment of the "Rensselaer Plan," a collaborative roadmap joining together faculty, staff, students and alumni in an effort to make RPI an academic mecca within the Northeast region. During her tenure, she has increased the level of educational services the university can provide students in part by securing a \$360 million unrestricted gift to RPI, one of the largest single gifts ever given to an American university, and by doubling annual fundraising in the last 3 years.

The influx of new financial resources during Dr. Jackson's tenure has spurred the new construction of state-of-the-art research facilities, including the Center for Biotechnology and Interdisciplinary Studies and the Experimental Media and Performing Arts Center. These construction projects have cor-

responded with increases in National Institute of Health, NIH, research funding from \$400,000 in 1999 to \$30 million in 2004. These increases have allowed the university to hire over 100 new faculty members and expand research activities. Students benefit from these first class facilities and improved student-to-faculty ratio while having the opportunity to be involved in cutting edge research.

Again, I commend Dr. Shirley Jackson for her remarkable accomplishments in keeping RPI, my alma mater, a top-tier technological university.

HONORING THE CONTRIBUTIONS
OF PEARSALL CITY COUNCILMAN
CONRAD CARRASCO, JR.

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to honor the distinguished public service of Pearsall City Councilman Conrad D. Carrasco, Jr.

Conrad Carrasco has long been an established part of Frio County's legal community. He entered public service in 1980, and served as Justice of the Peace for Precinct No. 3 through 1990. The Justice of the Peace is the judicial officer who works most closely with average citizens, and Mr. Carrasco's duties included the issuance of warrants and the settlement of small claims disputes between citizens. In this role, as in his other roles, Conrad Carrasco served the people of Frio County with distinction.

He was elected to the City Council of Pearsall in May, 2000. Mr. Carrasco has worked while on the council to safeguard Frio County's natural beauty and to ensure that the city is run in an accountable and effective manner. He serves in Place No. 3 on the Council, for a term that extends through May 2006.

Finally, he has distinguished himself as a businessman. He has been employed with KBJ's Loan Company since 1995, and continues to be a valuable part of his community's financial sector.

Conrad Carrasco has accumulated an impressive record of success in business and service to the people of Frio County. He is an important resource for his community, and I am proud to have had this opportunity to thank him.

INTRODUCTION OF THE NATIONAL
INVASIVE SPECIES COUNCIL ACT

HON. VERNON J. EHLERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. EHLERS. Mr. Speaker, today I am introducing legislation to codify the Executive Order that established the Invasive Species Council and gave the Council responsibility for coordinating all invasive species activities across the federal government (Executive Order #13112, issued in February 1999). Invasive species, such as the snakehead fish and zebra mussel, cause an enormous eco-

nomc, ecological and human health toll on the United States every year. There are over 20 different federal agencies involved in prevention, eradication, control, monitoring, research and outreach efforts to deal with the threat of invasive species, and this Executive effort seeks to make these efforts more coordinated, effective and cost-efficient. Better management of invasive species efforts across federal agencies is critical to an effective response to this threat, and the Executive Order was the right first step. However, it is only the first step. Congress now needs to pass this legislation to give the Council more authority to effectively meet this threat.

Since its inception, the Council has made progress in achieving its mandate. In particular, in January 2001 the Council issued the National Management Plan to provide a general blueprint of goals and actions for federal agencies to better deal with invasive species. While this broad plan lacks detail in some areas, it helps focus the various federal efforts on common goals and coordinated actions. In addition, the Council established a federal advisory committee consisting of 32 members from a broad array of stakeholders. The advisory committee has met several times in order to provide guidance on the development of the National Management Plan and on federal agency actions regarding invasive species in general.

While the Council has had some success, its authority to coordinate the actions of federal agencies has been limited. The Government Accountability Office (GAO) has recognized this problem, reporting that agencies did not incorporate the components of the National Management Plan into their annual performance plans. In addition, the GAO recommended that the Council study whether or not a lack of legislative authority has hampered its mission. Key agencies of the Council have already recognized this lack of authority as problematic and have supported codification of the Council in testimony before a November 2002 joint hearing of the House Resources and House Science Committees on aquatic invasive species.

The legislation I am introducing today essentially keeps the existing structure of the Council intact, while at the same time it addresses issues raised by the GAO by giving the Council a clear statutory mandate.

First, the legislation maintains the Executive Order's statement of administration policy that federal agencies should not undertake actions that may lead to the introduction or further spread of invasive species without careful consideration of the costs that the proposed action may cause. The legislation requires that the Council on Environmental Quality, in conjunction with the Council, issue guidelines for federal agencies to help them consider the consequences of any proposed action. The intent of this provision is to create a common set of guidelines by which all federal agencies can measure their actions, not to give individuals a private right of action against government agencies that take actions regarding invasive species.

Second, the legislation makes some modifications to the existing institutional structure of the Council. The membership of the Council will remain the same; however the legislation updates the membership, as described by the Executive Order, to reflect additional agencies that have been added since 1999. It also
